

The Economics of Ecosystems and Biodiversity (TEEB) for Agriculture and Food: Implementation in China

Mainstreaming the Value of Nature

“绿水青山就是金山银山”
Lucid waters and lush
mountains are invaluable assets.
or Green is Gold.

Shared same core value!

Challenges

Water resource depletion

Agricultural pollution

Land degradation

Example of impact: food safety concerns

**How TEEB can
contribute to the
transformation?**

National level: selection of case areas

Inception Workshop on TEEB: Promoting a Sustainable Agriculture and Food Sector–Implementation in China
20–21 August 2019, Beijing China

TEEBAgriFood inception workshop (August 2019)

Scoping and selecting case candidates

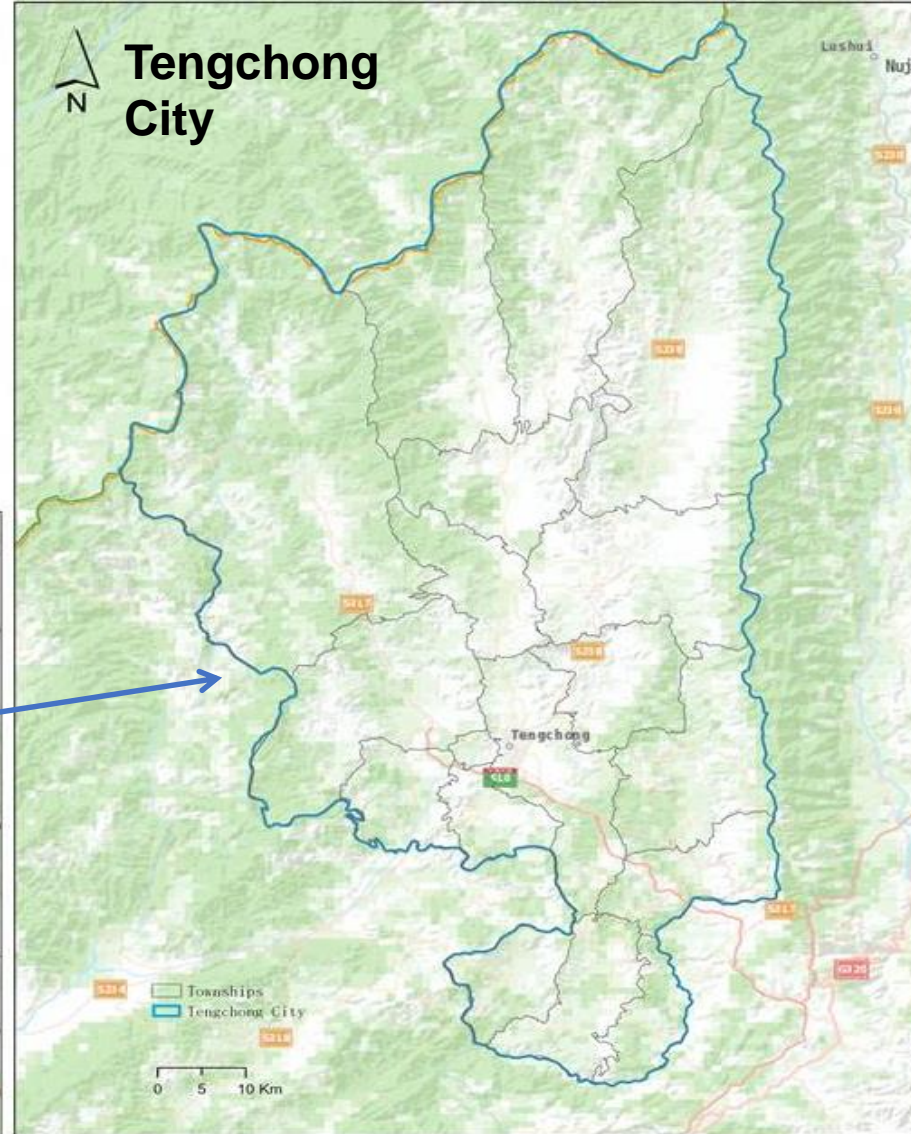

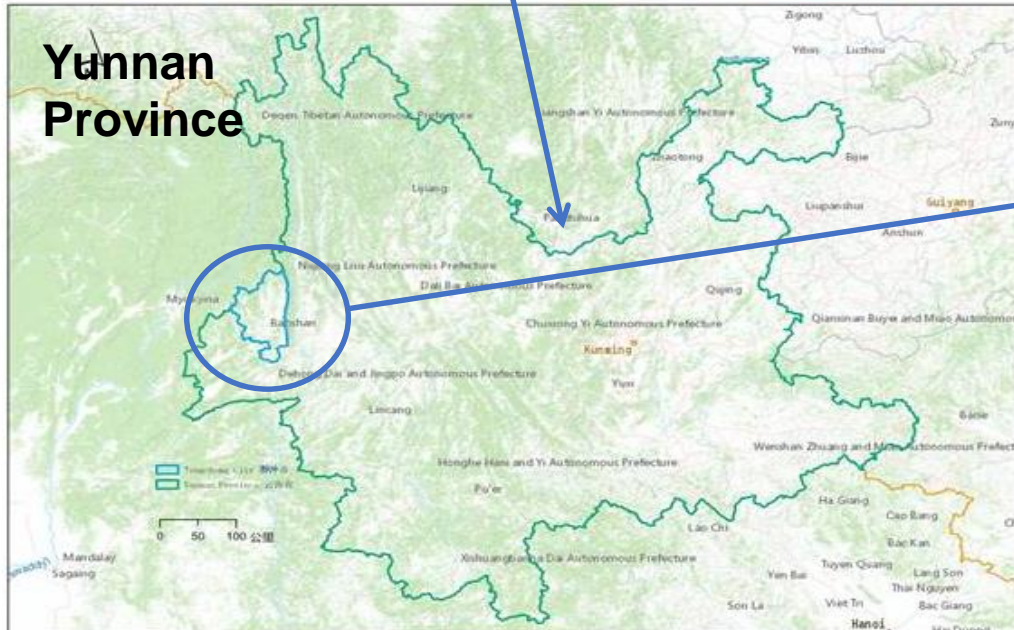

- Grassland eco-compensation (Inner Mongolia)
- Crab-breeding in modern agricultural park (Jiangsu)
- Green agriculture development (Tengchong, Yunnan)
- Integrated land management of terraces (Hani, Yunnan)

1st PSC meeting (July 2020)

- PSC's presence: MEE-CRAES, MARA-REEA, CAS, UNEP-IEMP
- **Green agricultural development of Tengchong City, Yunnan Province was selected as the case for TEEBAgriFood analysis**

Tengchong City, Yunnan Province

- Mountain area
- Excellent ecological environment
- Crop and livestock farming
- **National practice and innovation base for "lucid waters and lush mountains are invaluable assets"**

Tengchong: challenges, vision and goal

Challenges	Vision	Goal
<ul style="list-style-type: none">• Agricultural non-point pollution• Low value-added of agricultural products	<p>To develop high-quality modern industrial system</p> <ul style="list-style-type: none">- healthy food- healthy medicine- healthy sports- healthy tourism	<ul style="list-style-type: none">- Integrated development of the three industries- Construction of green food bases

Development of scenarios

Local stakeholder consultation
(Oct. 2020)

2nd PSC meeting (Feb. 2021)

基准情景

Example: baseline scenario

畜牧业 Livestock

种植业 Plantation

Links to policy

National	<ul style="list-style-type: none">• Overall guidance: Ecological Civilization & the development concept of “lucid waters and lush mountains are invaluable assets”• Zero-growth action on pesticides and fertilisers & resource-oriented utilization of crop straw, livestock and poultry manure
Provincial	<ul style="list-style-type: none">• Yunnan’s Green Food Program• “One county, one industry” demonstration plan
Local	<ul style="list-style-type: none">• Construction of green food base: pollution control, circular economy (crop straw, livestock and poultry manure), integrated development of the primary, secondary, and tertiary sectors & green and endemic food branding• Development of medicinal herbs industry (“One County, One Industry” demo)• Development of beef cattle industry (scaled beef cattle breeding & ecological pastures)
